Field check – Subarea 1 (base map 2010)

1. Walk the subarea. For each numbered building (group of attached buildings):
   - Is it still standing? If demolished, write X.
   - Ground-floor / main land use code:
     R = Residential C = Commercial M = Mixed use (e.g. shops below, housing above)
     I = Institutional & education (e.g. Concordia) O = Open space & parks
     T = Transport (e.g. parking lot / garage, metro) N = Industrial
   - If one group holds several buildings with different uses, list them in order (e.g. "12: C, C, R, R from Sherbrooke going south").
2. New buildings since 2010: mark where they are on the map (or give the address) and give their use.
3. Send me the list (e.g. "1 R, 2 M, 3 X ...") or a photo of this sheet.
